

**Ohio Department of Health and Ohio Asthma Coalition
Draft of Ohio Statewide Asthma Plan 2009-2014
Goal #1**

Listing of all 5-Year Goals:

- | | |
|--|--|
| 1. <u>Assess the burden of asthma in Ohio.</u> | <u>Projected Begin Date</u>
Sept., 2009 |
| 2. <u>Reduce asthma disparities among disproportionately affected population segments in Ohio.</u> | Sept., 2009 |
| 3. <u>Decrease the number of hospitalizations, emergency department and urgent care visits for asthma in Ohio.</u> | Sept., 2009 |

Budget Year One (9/01/2009 – 8/31/2014)

Grantee Name: Ohio Department of Health, Asthma Program	Measure(s)	Reference to most recent State Asthma Plan Goals	Resources: (CDC Asthma Cooperative Agreement, Other funding or both)
Goal #1: Assess the burden of asthma in Ohio			
Objective 1: Broaden the scope of current surveillance system to improve ability to track and report on asthma deaths, hospitalizations and disabilities. Baseline: Current data sources include: Information from BRFSS Core and Modules, OHA Hospital Discharges, National Asthma Survey, OHA ED Visits, Ohio Center for Health And Vital Statistics Asthma Death Data, ODJFS Medicaid Data, Ohio family Health Survey Target: 1. By Aug., 2014, OSSA will be regularly analyzing data and publishing reports from at least four additional data sources. 2. By Aug., 2014, OSSA will have published yearly brief Burden of Asthma in Ohio publications, and at least 3 additional single issue reports per year from 2009-2014.	1. Yearly Burden of Asthma Monograph 2. Three single issue data reports published each year. 3. Data sources include 4 sources not available in 2009.	Data/Research 1: By August 2009, OSSA will be regularly producing necessary data for planning and evaluation.	
Objectives and Activities will be developed each year with interim outcome targets.			
Objective 2: Implement a vehicle for dissemination of asthma data. Baseline: There is no one appropriate vehicle for dissemination Target: By Aug., 2014, dissemination of asthma data is routinely available through ODH, OAC Web sites and through identified individual email updates.	1. Yearly review of data available on ODH and OAC Web sites. 2. Annual review site users and their needs for service. 3. Distribution plans to relevant or related organizations.	Data/Research 1: By August 2009, OSSA will be regularly producing necessary data for planning and evaluation.	
Objectives and Activities will be developed each year with interim outcome targets.

Program Work Plan (Continued)
Goal #1**

	Measure(s)	Reference to most recent State Asthma Plan Goals	Resources: (CDC Asthma Cooperative Agreement, Other funding or both)
Objective 3: Evaluate the ODH Asthma Program, including the Ohio Surveillance System for Asthma (OSSA) and OAC Baseline: No evaluation has been completed yet Target: By Aug., 2014, the evaluation of the ODH Asthma Program, Ohio Asthma Coalition and the Ohio Surveillance System for Asthma will be completed.	Evaluation has been planned, continuous and complete.	Data/Research 1. By August 2009, OSSA will be regularly producing necessary data for planning and evaluation.	
Objectives and Activities will be developed each year by June 30, with interim outcome targets.			
Objective 4: Increase access to and utilization of Ohio research through identification and implementation of new communication and networking strategies. Baseline: No vehicle currently exists. Target: 1. By Aug., 2014, Ohio Asthma Education and Research Conferences have been held in 2010, 2012 and 2014. 2. By Aug., 2014, information technology networking is used by researchers and has users from all the medical schools and asthma research programs in the major universities in Ohio.	1. Ohio Asthma Education and Research Conferences were held 2010, 2012, 2014. 2. Establish of active network of Ohio researchers.	Education Goal 5: By Aug. 2009, develops an annual Ohio Asthma Conference focused on asthma education issues. Data/Research Goal 3: Facilitate asthma research in Ohio.	
Objectives and Activities will be developed each year by June 30, with interim outcome targets.

 Draft of Ohio Statewide Asthma Plan 2009-2014
 Program Work Plan (Continued)
 Goal #2**

Grantee Name: Ohio Department of Health, Asthma Program	Measure(s)	Reference to 2004-9 Ohio Statewide Asthma Plan Goals	Resources: (CDC Asthma Cooperative Agreement, Other Funding, or Both)
Goal #2: Reduce asthma disparities among disproportionately affected population segments in Ohio			
Objective 1: Increase awareness/knowledge about the impact of asthma in communities disproportionately affected by asthma. Baseline: No baseline data available. Target: By Aug., 2014, 80 percent of organizations in which initiatives have been implemented are using the interventions as recommended.	1. Surveys of organizations and patients/clients.	Clinical Practice, Goal 1: Implement effective interventions to promote high quality asthma care of lower income and minority populations.	
Objectives and Activities will be developed each year by June 30, with interim outcome targets.			
Objective 2: Increase implementation of evidence –based asthma care initiatives designed to improve racial/ethnic minority asthma and reduce asthma disparities. Baseline: No baseline data available. Target: By Aug., 2014, 80 percent of organizations in which initiatives have been implemented are using culturally appropriate interventions.	1. Survey of organizations. 2. Asthma Call Back survey, 3. Survey of patients/clients.	Clinical Practice, Goal 1: Implement effective interventions to promote high quality asthma care of lower income and minority populations.	
Objectives and Activities will be developed each year by June 30, with interim outcome targets.

Goal #3

Program Work Plan (Continued)

<p>Grantee Name: Ohio Department of Health, Asthma Program</p>	<p align="center">Measure(s)</p>	<p align="center">Reference to Most Recent State Asthma Plan Goals</p>	<p align="center">Resources: (CDC Asthma Cooperative Agreement, Other Funding, or Both)</p>
<p>Goal #3: Decrease the number of asthma hospitalizations, emergency department and urgent care visits.</p>			
<p>Objective 1: Increase the percentage of asthma patients who receive self management education, including developing using a customized self-management plan, recognizing early signs or symptoms of an asthma episode, understanding what to do during an asthma episode or attack, or using a peak flow meter to adjust daily medications. Baseline: Ever taught to recognize early symptoms, 57.7%, ever taught what to do during an asthma episode or attack, 67.6%, ever taught how to use a peak flow, 33.8, ever given an asthma action plan, 19.5%, ever taken a course to manage asthma, 5.2%. Target: By Aug., 2014, the number of people with asthma who receive asthma self-management education either in healthcare settings, schools, workplaces, or at home will have increased by 30 percent. (Objective 24-6, Healthy People 2010).</p>	<p>National Asthma Survey 2007, questions 6.1-6.5, which address asthma education with health professionals. These indicators may be looked at alone, or aggregated to form an index.</p>	<p>Clinical Practice, Goal 1: Implement effective interventions to promote high quality asthma care of lower income and minority populations.</p>	
<p>Objectives and Activities will be developed each year by June 30, with interim outcome targets.</p>			
<p>Objective 2: Improve systems of asthma care to achieve optimal asthma management in different types of environments. Baseline: No baseline data available Target: By Aug., 2014 organized systems of asthma care will be practiced in healthcare settings, schools, workplaces, and homes.</p>	<ol style="list-style-type: none"> 1. Systems will be defined. 2. Asthma Call Back Survey. 3. Surveys of providers and organizations. 	<p>Clinical Practice, Goal 1: Implement effective interventions to promote high quality asthma care of lower income and minority populations.</p>	
<p>Objectives and Activities will be developed each year by June 30, with interim outcome targets.</p>
